V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1 - 6	YES
	Claims		NO
Inventive step (IS)	Claims	1 - 6	YES
	Claims		NO
Industrial applicability (IA)	Claims	1 - 6	YES
	Claims		NO

2. Citations and explanations

An arrangement for the continuous casting of steel comprising a lifting table, which can be driven in oscillating manner and receives a continuous casting die, and a rigidly disposed support frame, which is provided with a resilient spring system (as guide and mounting elements for the lifting table), as defined in the characterizing part of Claim 1, is neither known from the prior art nor can be derived therefrom in obvious manner.

Therefore the subject matter of Claim 1 and dependent Claims 2 to 6 is novel and inventive within the meaning of PCT Article 33(2) and (3).

The claimed arrangement has industrial applicability for the continuous casting of metal, in particular steel (PCT Article 33(4)).
